A. E. WORLEY, Prop. No. 141.

MISS FAY LEE,

President of the Shakespearian Club, Kansas City.

"Your booklet came to me some like a message of health when I had suffered with headache, backache and bearing-down pains. I was weak, nervous and hysterical and had not consulted any doctor, thinking it would pass away in time, but instead I found that the pains increased and were more frequent. I decided to try Wine of Cardui and in a short time was much improved. It seemed to act like a charm. I kept up the treatment and the result was most satisfactory. Words fail to express my gratitude for the suffering that is now saved me. I am in fine health, physically and mentally. I can only say 'thank you', but there is much more in my heart for you."

Miss Fay Lee

nervous tension. The nerves soon begin to give way under the strain. You perhaps jump at any unusual disturbance, or laugh or weep, hysterically, at no apparent cause. That is what Miss Fay Lee, 603 1/2 North Seventh Street, Kansas City, Kansas, was coming to when she rescued herself by taking Wine of Cardui. The Wine made her a strong, healthy woman again, as it has made a million other women strong and healthy. By inducing regular menstruation the entire system is relieved of the terrible wasting drains. The ligaments which hold the womb in place are strengthened by a healthy flow and that organ is returned to its normal position. Returning health is the result. This is what Wine of Cardui has done for thousands of the best women in America.

BEARING-DOWN pains are the worst that women know. If you are suffering from this trouble you need not be uncertain about it. The pains in the abdomen and back that feel as if heavy weights were pulling down on the nerves of the stomach are "bearing-down pains". They may not be particularly severe at present but they are growing worse. That headache which nearly drives you distracted now is caused by the terrible

If you need advice write The Ladies' Advisory Department, The Chattanooga Medicine Company, Chattanooga, Tenn., describing all your symptoms freely, and a letter of advice will be sent you. Secure a \$1.00 bottle of Wine of Cardui from your druggist to-day.

WINE of CARDUI

A million suffering women have found relief in Wine of Cardui.

IS BELIEVED REACHED

Thought the Crest of the Flood Has Been Attained at Memphis.

FORTY FEET HEIGHT

At Trice's Landing the Flood Continues to Pour Through the Crevasse and the Rush of the Water Is Terrific.

Memphis, March 20.—It is believed that the crest of the Mississippi river flood has reached Memphis and that a fall will begin within less than twenty-four hours. However, the conditions that exist above Memphis with the gap in the levee at Trice's Landing, Ark., make it a most difficult and uncertain matter to forecast what is likely to occur in the flood situation. The gauge Thursday night showed 40 feet and stationary, a rise of two-tenths in twenty-four hours.

While the crevasse has not widened to any appreciable degree, the levee is overtopped a short distance further to the north and the flooded Mississippi is discharging much water at both this point and at the crevasse. A difference of between four and five feet exists in the height of the water on either side of the levee at the crevasse, and the rush of water through the opening is terrific. The St. Francis levee board made a second effort to send the tug Diana and a barge through the crevasse to assist in rescuing people and livestock in Arkansas. The Diana and the government steamer Abbot went to the crevasse with the purpose fully formed of sending the tug through in charge of Captain Fogleman, who had volunteered for the dangerous work. When the situation was carefully inspected the idea of putting the tug through the gap was abandoned, as the fall is so great and the rush of the water so strong that it was feared the tug could not safely pass through. About 100 yards west of the levee there is a belt of heavy timber and the current sweeps against the large trees with force sufficient to make them sway with violence. This condition made it most probable that the tug would be swept into the timber by the force of the current and disabled or even overturned. These and other unfavorable conditions make it impossible to ease the tug through with cables as was contemplated, and consequently the task has been abandoned for the present at least.

A special to the Commercial-Appeal from Marion, Ark., received at a late hour Thursday night, tells of great havoc by the flood at that point, and says that such extremities have been reached by the people there, that it was decided at a conference of prominent citizens to dynamite the levee at once at Mound City, Ark., unless the St. Francis levee board sent a rescue boat through the break at Trice's landing at once.

Water is running eight feet deep through every street of the town with fearful force, and a rapid rise is in progress. Twenty white persons of local families are quartered in the second story of the courthouse, and fully 200 negroes, many without food are penned up in various buildings of the village. Several hundred head of stock, without sufficient food, are on platforms in the village and the first story of all houses are under water. The Frisco railroad tracks are covered and washed for six miles, and a handcar, bearing General Manager B. L. Winchell, was put through from the west with the greatest difficulty, and grave risk. Mr. Winchell stated that he saw no hope of opening the line through to Memphis for at least a week after the water shall recede.

Sheriff Williamson of Crittenden county and other prominent citizens, attended the meeting at which it was decided to dynamite the levee. The citizens have sufficient of the explosive to tear an opening in the levee.

AROUND NATCHEZ.

The Water Has Washed Away a Levee in Jefferson County, Mississippi.

Natchez, Miss., March 20.—Alderman A. F. Jacobs returned from a trip to Ashland, his brother's place, where the private levee was overtopped last week, the water pouring in, washing away the levee and flooding the western end of Jefferson county. Nothing can be done with the levee there and planters must wait until the river goes down. About four hundred head of stock were brought down from Ashland and stabled here in Natchez. A heavy rain began here Thursday night.

The inflow from Bougere crevasse is filling Black river, that river showing a rise of one-tenth at Jonesville and still rising.

The Betsy Ann came in from Bayou Sara with another lot of refugees and stock. She cleared as quickly as possible to get another load. She was compelled to pass a lot of stock standing in water below Fort Adams, but the river will have swept the stock away before she can reach that point.

The river rose .35 in the twenty-four hours ending Thursday afternoon at four o'clock, which makes it 4.35 above the danger line and rising.

The Coral, with its colony of 200 people under the bluffs at the north-

west corner of the city, has been cut off by the rising river, and several streets in the place are filled with water.

Tributaries Swollen.

Lacrosse, Wis., March 20.—Continued rains of the past week have swollen the tributaries of the Mississippi badly causing it to rise nearly three feet, within the past forty-eight hours. Old river men anticipate a further rise of at least two feet, and farmers on the lowlands are making preparations to vacate their homes.

GIVEN AWAY.

It Is Reported There Is a Wide Crevasse at Pecan Point.

Memphis, March 20.—In spite of heroic work by hundreds of men the levee near Pecan Point, forty miles north, is reported to have given away, and a vast volume of water is running through the crevasse 400 feet wide. Pecan Point, twenty miles north of Trice's Landing, where the first break occurred, is an additional flood being let into St. Francis basin, and will cause waters through the lowlands to rise more rapidly.

Reports of suffering of people at Marion are believed to be somewhat exaggerated. Every opportunity has been given those remaining there to get out of the flooded district, but they decline to leave. President Killough of the St. Francis levee board says that while the situation there is serious, there has been no actual distress except in a few isolated cases. The Frisco railroad Thursday advertised a train to leave Marion at 2 o'clock going west to Jonesboro and other places, and announced that no one would be denied admission to the cars. It is said only four or five persons took advantage of the offer.

Chief Engineer Pharr of the St. Francis board left for Pecan Point, and levees from that place south would be closely watched.

Residents along the river south of here are becoming alarmed in anticipation of the rise, which must come when the waters begin to fall at Memphis.

The river here continues to rise very slowly, the gauge marking 40.1 feet, which is a rise of one-tenth in twenty-four hours.

MAXIMUM ATTAINED.

Gauge at New Orleans Shows Figures of Six Years Ago Are Reached.

New Orleans, March 20.—The river has reached 19.6, which the government officials say was the maximum attained during the record breaking flood of 1897. The levee board continues to prepare for all eventualities and work along river front is uninterrupted. There was a heavy shower Thursday night. Beyond the break at Bougere all Louisiana levees are holding. The Bougere mishap was not unexpected, as it was the scene of an old crevasse that had been permitted to remain open many years. Because of the water flowing through it did comparatively little damage.

When the Texas and Pacific railway started to build its line that will ultimately give a through route on the west bank between New Orleans and St. Louis it was found necessary to mend the break. The levee was not built to withstand a record breaking flood.

BREAKS OCCUR.

Water Is Pouring Through the Levee at North Helena.

Helena, Ark., March 20.—Two or three small breaks occurred in the North Helena levee, which protects the northern suburbs, known as North Helena. Water is pouring through the breaks in the levee and over the top of the embankment, which will fill the entire basin and cover the territory from Walker street to the hills. Walker street levee, which protects the city proper on the north, is positively in no danger. The river last Thursday night stood forty-nine feet two-tenths, with the general belief that fifty-one feet will be reached before Sunday.

Yazoo and Mississippi Valley railroad local officials expect traffic from this point to Lula to be stopped entirely before the end of the week, as the railroad embankment from the river bank to the state levee, two miles back, can stand only a foot rise and is in serious condition.

DIKE SLIPPING.

Greenville, Miss., May Soon Become an Interior City.

Greenville, Miss., March 20.—The protection dike at Leland, Ark., is rapidly slipping into the river, and it is not improbable mighty river will seek a new channel, leaving Greenville in the interior. The situation is most grave, though Captain Bollinger thinks probably he can hold it. The trouble here, as at Huntington, is the river is four feet above the 1897 mark and rising at the rate of half a foot a day. A heavy rain fell during Thursday night, which retards work and adds to the danger.

A wide territory from Bayou Mason to Rouseff river and including Lake village will be flooded should a crevasse occur.

Grossly Exaggerated.

Vicksburg, Miss., March 20.—Reports as to Duval's Bluff are grossly exaggerated.

BRYAN, TEXAS, MAR. 21, 1903

Anderson expects the railroad to get there within ten or fifteen days.

Edward VII, King of England, Emperor of India and Defender of the Faith, has ordered another barrel of Kentucky whisky.

The Willacy local option bill attracts a great deal of interest at Austin, and is being fought bitterly. It will have an extremely close call if it passes.

The pending bill that proposes to tax intangible assets of corporations is being fought by the strongest lobby yet assembled at Austin. It is a move to have street car companies and such like concerns pay taxes on the real value of their properties, which includes their franchises, and it is difficult to see any good reason why they should not be so taxed.

American are opening retail stores in Germany and selling American made shoes, musical instruments, etc. over there, which are very popular with those able to afford them. American shoes are said to be neater and more comfortable than the German article.

A Calvert news item says that the prohibitionists of Calvert are circulating a petition asking the commissioners court to order an election for Robertson county. Rev. J. G. Adams of Fort Worth is delivering a series of prohibition lectures in the county.

A case is being tried at Fort Worth which involves the constitutionality of the law against bucket shops, or concerns that make contracts for future deliveries of cotton and other products, on margins.

Federation of labor organizers at Tampa, Florida, have been threatened with death if they do not desist from their plans and work. Samuel Gompers, the head of the order, has appealed for protection.

MEN'S FURNISHERS.

TELEGRAPHIC COTTON MARKETS.

Memphis Cotton Letter—Yesterday's Liverpool and New York Spot and Future Markets—Port Receipts Yesterday and Comparisons.

Special to Geo. W. Smith, Jr.:

Memphis, Tenn., March 20—Liverpool recorded an advance of six points on spot cotton today and three points on arrivals.

May and June sold on first call at 5.23 and closed quiet and steady at 5.26 to 5.27. Middling uplands were quoted at 5.40. Sales 7000 bales. New York commenced the day one to two points lower on initial sales. May sold on the opening at 9.92, advanced to 9.95, declined to 9.88, advanced to 9.93, declined to 9.86, advanced to 9.90, declined to 9.88, closed steady at 9.87. Spot quotations were marked up five points. Middling 10.15.

The southern markets as a rule were steady at unchanged prices. New Orleans sold 5050 bales on a basis of 9 1/4 for middling, and Memphis sold 1274 bales at 9 1/4 for same grade.

The port receipts aggregated 12,532 bales; same day 1902, 13,922; 1901, 15,936; 1900, —; 1899, 20,306; 1898, 19,106. The interior cotton receipts were relatively smaller. The five principal towns received 7,123 bales against 4,139 bales for the corresponding day last season.

New Orleans expects tomorrow 5000 to 6000 bales, same day last year 3438. Galveston expects tomorrow 2000 to 3000 bales, same day last year 4387. Houston expects tomorrow 3500 to 4000 bales, same day last year 2458.

The amount of cotton in sight for the week proved to be 140,264 bales; same day 1902, 146,071; 1901, 155,619; 1900, 138,310.

With continued light receipts and good spot demand there was nothing to break the market today except a threatened strike at Lowell and heavy realizing sales by the clique.

GEN. BOONE VERY ILL.

The Condition of His Leg Necessitated Amputation.

Navasota, Tex., March 19.—Gen. Gordon Boone of this city, who has been critical ill for several weeks, is now in a very precarious condition and serious consequences are feared. Up until yesterday he appeared to be improving, when it was discovered that blood poisoning was setting in on his left leg, and today a prominent physician was called from Houston in consultation with the local physicians. After consultation it was found necessary to amputate the affected member, and the operation was performed this afternoon. On account of his very weak condition it is feared that he can not survive the operation.—Galveston News.

This announcement has been received with profound regret by Gen. Boone's host of friends in Bryan. He is regarded as one of the brightest, best and most promising young men of this section, and it is devoutly hoped that his life will be spared.

Judge A. C. Brietz, who went to Navasota yesterday afternoon to see Gen. Boone, told the Eagle reporter he had just heard he was better.

Fifth Sunday Meeting Postponed.

The Fifth Sunday meeting to have been held at Providence church this month, has been postponed until the fifth Sunday in June. This is done on account of the bad weather and the fact that people will be too busy with work this month to make preparations for the meeting. Respy'ty.
T. T. Goodwin.

New Goods.

New embroidery medallion trimmings, large pearl buttons for waists—all colors. San silk, fancy work, new lawns—lace effects, 5c. W. J. Coulter.

MEN'S OUTFITTERS.

The jury in the Bill Young case rendered a verdict of guilty yesterday morning and assessed punishment at six years in the penitentiary. Young was charged with bringing stolen property into Brazos county. It will be remembered that he and a man named Dunlap were arrested by Mr. W. C. Boyett at College Station on New Year's day, charged with the burglary of the Sanders & Sanders store at Iola the night previous, when a considerable sum of money was taken. Dunlap was subsequently sent up from Grimes county, and Young was brought back here and placed in jail. The case will very probably be appealed.

Chas. S. Gainer of Millican is in the city. Mr. Gainer has recently purchased a half interest in the Johnson dairy farm and stable of standard bred horses at Millican. The firm name is Johnson & Gainer. They have just purchased five more head of good horses, and have 150 head of fine registered Jersey cattle. In addition to continuing the business of the dairy farm and stock breeding, the gentlemen are making preparations for opening a rock quarry on the place, being almost ready to commence blasting.

Isaiah Granger, colored, charged with the murder of another negro named Will Shelley, on Cedar creek in this county, more than a year ago, was placed on trial in the district court yesterday and entered a plea of guilty to murder in the second degree. The jury returned a verdict fixing his punishment at ten years in the penitentiary. Granger was brought back here from Navarro county, where he was shot some months ago while resisting arrest. He has apparently entirely recovered from the wound.

Theo Mendelsohn was here from Sour Lake yesterday in consultation with C. G. Parsons for whom he is boring an oil well on the Parson's tract. He has reached a depth of 918 feet and struck oil which he believes will pay as a pumping proposition and may flow when the well is cleaned out. His contract is to go deeper, but Mr. Parsons told him to take the necessary steps to determine the value of the well at its present depth.

Mrs. W. S. Howell requests the Eagle to ask all children who are to take part in the "Tom Thumb Wedding" to meet at the opera house this afternoon at 4 o'clock. All others who are to take part in the benefit entertainment will please meet at the opera house tonight at 8 o'clock. Weather permitting.

District Judge J. C. Scott was called to Franklin yesterday by the sudden death of Judge J. T. Simmons yesterday morning. Judge Simmons was ex-county judge of Robertson county, a leading lawyer and a very popular man.

Sheriff Nunn returned from Houston Thursday night with Charlie Robinson, a negro boy charged with the burglary of John Konecny's house. The case was called about noon yesterday, but later continued until Monday.

The following divorces have been granted at the present term of district court: Lee Gibson vs. Ethel Gibson; George Jackson vs. Ellen Jackson; Mattie Evans vs. Bob Evans; R. A. Holland vs. Julia Holland.

DISASTER ON A SOUND

Vessels Come Together With Terrific Force in a Fog.

PLYMOUTH PIERCED.

Vast Volume of Water Poured Into the Steamer's Hold and Several of Her Crew Drowned in Their Bunks.

New London, Conn., March 20.—In a fog which descended upon the waters of Long Island sound Thursday night, the big Fall River passenger steamer Plymouth, from New York for Fall River, with many passengers and a crew of 200 men, was run down while going through the race, by the freight steamer City of Taunton of the same line, bound for New York. A full hundred feet of the starboard of the vessel was mashed in as if it had been paper. The staterooms in the second cabin were entirely cut away, while down in the hold members of the crew who were asleep in the steerage were drowned by the torrent of water that rushed through the great gap made by the bow of the freighter. Although greatly terrified, the people aboard the stricken ship exercised remarkable self-control and there was no panic. The collision occurred after the vessel had slowly made her way up the sound through the fog until she reached a point east of Gill Island. The City of Taunton drove up out of the fog, and when she was sighted by officers of the Plymouth was too close to avoid a collision. There was a quick exchange of signals and then a crash. The bow of the City of Taunton penetrated ten feet into the hull of the Plymouth, and as she backed away she raked the upper works of the passenger vessel, tearing out her second cabin and ripping the staterooms to pieces. The water poured into the hold and drowned the men there in their bunks. The Plymouth immediately headed for this city. It was thought at one time the ship's company would have to take to the boats, but the closing in the collision of the bulkheads prevented the water from gaining and the vessel made the harbor and wharf unassisted. There is no way of telling immediately how many persons perished. A number were injured. Six dead certainly, and in the mass of debris from the wreck in the cabin and staterooms there may be several more bodies beside those reported.

As the Plymouth was being made fast to the wharf there was a hole ten feet square in her hull on the starboard side, about thirty-five feet from the bow, while for 100 feet her pointer work had been carried away, including the entire second cabin and seven staterooms on the saloon deck. Known dead: John McCarthy, watchman, head cut off; Snow Coleman, negro pantryman, drowned; Julius Dawson, negro messman, drowned; John Bristol, negro waiter, drowned; John Williams, negro baker, drowned; Jonathan W. Thompson, Wilkesbarre, Pa., skull shattered.

Captain Davis of the Plymouth declined to make any statement concerning the accident at this time. Captain T. H. Low of the United States marine corps, with Lieutenant W. C. Harley and seventy-five marines, occupied the second cabin on the side where the crash was felt. All the marines carried their spare clothes and their knapsacks, and most of the latter are thought to be lost. None of the marines were killed or injured.

The City of Taunton made this port with her bow stove in and pumps working. Her bulkhead saved her from sinking.

SENATE AND HOUSE.

Both Branches of the Legislature Are Hard at Work.

Austin, March 20.—Senator McKamy, introduced in the senate a bill amending the city charter of Dallas so as to include Oak Cliff in its boundaries. A favorable committee report was secured.

The senate passed finally the anti-scalping bill, which prohibits ticket brokers operating in Texas; also bill prohibiting sale of liquor to habitual drunkards; also bill prohibiting insurance companies doing business in Texas except through licensed agents, boiler insurance companies exempted.

A resolution was adopted in the senate that local bills shall be considered in the afternoon until the end of the session. There are big rush of bills now being pushed in both branches on account of the near approach of the end of the session.

The house adopted a resolution providing for the appointment of a committee of five representatives to visit the next state encampment and report to the next legislature how it is conducted.

ASSAULTED BY A NEGRO.

President of a Bank at Spring City Is Dangerously Injured.

Spring City, Tenn., March 20.—A. D. Paul, a prominent citizen and president of a bank, was assaulted Thursday night by Dock Darwin, a negro, whom he discharged from his service. The negro used a hatchet or some like instrument, and Paul's skull was fractured in addition to other injuries which he received. He is in a precarious condition.

Darwin fled after committing the assault and a posse with bloodhounds gave chase, capturing him after a long run through the country. Officers with difficulty prevented a mob from forming and taking the negro's life. Darwin was removed to the county jail at Dayton, Tenn.

GOMPERS APPEALS.

Asks Tampa Chief of Police to Protect Federation Organizers.

Washington, March 20.—Samuel Gompers, president of the American Federation of Labor, sent the following telegram:

Washington, March 19.—Chief of Police, Tampa, Fla.—In the name of organized labor, as well as every liberty loving citizen, I demand full protection to our organizers, James Wood and James A. Roberts and others whose lives have been threatened. These men I know to be law abiding citizens and would not be guilty of an unlawful act. They have a right to organize workmen and if necessary in defense of their rights, to strike for the enforcement of them, if no other means of redress is afforded. The kidnapping and making way with a number of Tampa's workmen less than two years ago warrants belief that the present threat is serious and emanates from a capitalistic organization of banditti.

SAMUEL GOMPERS. This telegram as sent by Mr. Gompers on receipt of statements from the organizers mentioned that the subjoined communications had been received by them:

"Tampa, March, 1903.—James Wood: You are hereby commanded to leave the city at once and never return. Our men have been watching you since your arrival and we are convinced that you are a trouble-maker. Leave the city and save yourself the trouble of our being compelled to remove you which we will do if you are in the city 24 hours after receiving this letter. Take your big guard and leave the city under paid of death, for we will not have or tolerate any more strikes in this city. Leave or you die."

"COMMITTEE OF TAMPA AND SURROUNDING COUNTRY."

"Tampa, March. — 1903.—James A. Roberts: You are hereby commanded to leave the city at once. You conspired to bring nigger William back. You brought Wood here. You are conspiring with the anarchists in order to bring on a strike. You brought them anarchists from Key West to bring on a strike and we think your next move for the good of Tampa will be to leave the city, and if you ever come back you do so at your own peril. To remain 24 hours after receiving this letter means death for both you and Wood. Get out of the city and save us the trouble of removing you."

"COMMITTEE OF TAMPA AND SURROUNDING COUNTRY." Mr. Gompers announced that he had been advised that letters similar to these also were served on Jose Diaz, Geo. Bristow and Frank Kelly, members of the Cigar Makers' International union.

WILL BE PROTECTED.

Tampa, Fla., March 20.—Chief of Police Jones Thursday night received a lengthy telegram from Samuel Gompers, president of the American Federation of Labor, demanding protection of four labor leaders alleged to have received threatening letters several weeks ago. Chief Jones answered that the men will be given all protection necessary.

CUBAN TREATY.

Reciprocity Measure Adopted and Senate Finally Adjourns.

Washington, March 20.—After ratifying the Cuban reciprocity treaty the senate adjourned sine die Thursday at fifteen minutes past 5 o'clock. Practically the entire day was spent behind closed doors in executive session. Most of the time was devoted to consideration of the Cuban treaty. Several speeches were made in opposition to the treaty and in favor of it and then promptly at the agreed hour, 3 o'clock, voting began. Roll calls were had on a number of amendments and the treaty itself was made the subject of an eye and no vote. The motion to ratify was adopted by a ballot of fifty to sixteen, somewhat more than a three-fourths vote, where as only a two-thirds vote was necessary to secure a ratification.

Immediately after the doors were closed a few minutes past 11 o'clock, Senator Foster of Louisiana took the floor in order to make a set speech in opposition to the treaty. He spoke for about two hours and a half. His address had been prepared carefully, and on its conclusion Mr. Foster very generally was complimented on his manner of presenting the opposition view to the treaty. In the main his speech was an appeal for the protection of the American sugar producing industry.

Senator Allison and Cockrell were appointed a committee to visit the white house and notify the president the senate was ready to adjourn if he had nothing further to communicate. Upon their return they reported the president had no further business, whereupon sine die adjournment was taken.

Tents Desired.

Memphis, March 20.—Mayor Williams sent the following telegram to Secretary of War Root: "Refugees from overflooded districts flocking to Memphis and need shelter badly. Can you furnish us with several hundred tents?"

Batson Sentenced.

Lake Charles, La., March 20.—A. E. Batson was sentenced to death for the murder of the Earl family. No appeal was taken in his case, and his only hope lies in executive clemency. The governor fixes the date of all executions in Louisiana. Batson reiterated his innocence and heard his sentence with nerve unshaken.

Glove Contest Prohibited.

Ardmore, I. T., March 20.—Government officials will not permit the glove contest between Jack Perkins of Kansas City and Sam Yates of Ardmore to take place in Ardmore.

For Sale

BY—

LAMAR BETHE

Successor to Monroe Edge.

Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and exposes the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

Kodol Dyspepsia Cure

relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

Kodol Digests What You Eat

Makes the Stomach Sweet.
